SUMMARY

I am a motivated tech enthusiast with a strong interest in web development and emerging technologies. I enjoy learning new tools, building creative solutions, and contributing to projects that solve real-world challenges. I'm eager to gain hands-on experience through an internship and grow both personally and professionally.

EDUCATION

NATIONAL COLLEGE OF COMPUTER STUDIES

2021- Present

Bachelor's of Information Management

NCCS Secondary School

2019 - 2021

- Computer Science
- Business Studies

CGPA - 3.57/4

COURSEWORK

- | | | | |
|----------------------------|-------------------------------|--------------------------------|------------------------------|
| • Programming Fundamentals | • Computer Network | • Data Structure and Algorithm | • Database Management System |
| • Operating System | • Data Warehousing and Mining | • Web Development | |

SKILLS

- Programming Languages: JavaScript, Python, PHP, C, JAVA
- Frameworks & Libraries: Django, React.js, Node.js, Express.js, Next.js, Bootstrap, Tailwind CSS
- Databases & Caching: MongoDB, MySQL
- DevOps, Tools & Deployment: Git, GitHub, VS Code, Postman,
- API & Backend Development: RESTful APIs, JSON, Authentication (JWT, OAuth)
- Others: Figma, API Integration, Problem Solving, Responsive Design

PROJECTS

- **AI-Powered Attendance Management System**

[repo link](#)

Developed a scalable attendance management system integrating AI automation for enhanced accuracy. Implemented JWT-based authentication with Redux and Axios for secure user sessions. Built a robust backend using Django REST Framework, enabling full CRUD operations with optimized performance. Designed an efficient database architecture ensuring high availability and responsiveness. (6th Semester Summer Project)

- **To-Do App using React**

Created a dynamic and responsive task management application using React. Implemented efficient state management with React Hooks and Context API to ensure seamless user interaction and real-time updates

ACHIEVEMENT/ CERTIFICATE

- Data Analyst ([2025](#))
- Recognized as TU Topper in the 3rd Semester of Bachelor of Information Management (BIM).
